Map 2 was released in 2004. A second printing was done in 2008. The map was reprinted again in 2013, at which time updates were made to the map. If you are using the earlier editions for navigation you will want to make note of the changes for each edition. Below you will find the Trail Updates that were noted for the first and second printing of Map 1 between 2004 and 2013:
