

# NFCT Trail Update

---

**Map:** 5

**Date of Update:** 3-3-2015

**Location:** Diorio Access

**Waterbody:** Missisquoi River

**Town:** Mansonville, QC

**Lat/Long:** 45° 04' 22.47" N, 72° 23' 14.71" W

**Elevation:** 550 feet

**Overview:** To transition from the Missisquoi River to the Grand Portage in Mansonville, QC (Chemin Peabody or Peabody Road) we have heard that most paddlers are using a river left location through a farmer's field. We do not have a landowner agreement with this landowner at this time. We do however have an agreement with the landowner upstream of the Peabody Road Bridge on river right. This access requires that you walk along the side of the bridge abutment, which has a tendency to get overgrown in alders. Please scout this option first.

## Site Information:

*To the left is a picture of the Diorio Access. The footing is difficult and it can be grown in. The NFCT is working to either improve this location or create a landowner agreement with an access location downstream of the bridge on river left.*
