

ADIRONDACK CANOE CLASSIC
 September 9-11, 2022
Day 2 Course Description
 Long Lake to Tupper Lake
 Distance: 33 Miles including one carry of 1.25 miles

The Finish Line will be tight. Please do not recross the line and interfere with others who are finishing behind you.

Six miles downstream is Trombley's Landing, a wide bend to the left with a high sandy bank. You have 1.5 miles to go to the Finish Line at The Crusher.

Put back in below Raquette Falls and paddle past Stoney Creek to Axton Landing. Paddlers reaching this point after the cut-off will be transported to The Crusher.

Paddle approximately 5 miles down river through several shallows to the Raquette Falls Carry. You must carry your boat here. There is a Pit Stop at the other end.

The Raquette River is winding, but is easy to follow as you paddle with the current. Approximately 1 mile down the river, there is a shallow area and a big rock in the middle of the river. Cold River enters from the right. Go to the left.

COLD RIVER

Paddlers go under the bridge and paddle downstream 10 miles past Round Island, the Camp Islands and Island House on their way to the often shallow mouth of the Raquette River.

Paddlers reaching this point after the cut-off will be returned to the Long Lake Boat Launch.

Day 2 begins at Bissell's Field, about 2.5 miles south of the Long Lake Bridge.

LONG LAKE BRIDGE
